I listed my cars and then I got the emails. That is how they know what I want. They just need to fix it so that they can get out to the show room. I listed my cars by model, year, miles, and type. I listed them all as available. I put my wanted photos and prices too. If the car is not for sale, then it is still available. We offer a fair price on a fair price. I am using a mobile website. Many people don't understand my mobile website. Buy my car with confidence. I am part of the first car oriented dealership to own a website dedicated specifically to you. I am very responsive with my customers. I will text you if my cars are not up for sale. I can not be bothered if it is an hour or a day in between text messages. If you have a problem, then don't bother to text me. Call me at 817.760.9030. I am on the same telephone number on my dealership website. If you call, then I will give you my dealership telephone number. When I talk, I answer your questions immediately. I do not list my cars and then just forget to reply. I list my cars on the same day and give it a couple of days to sell. That is why I am
